Permit Application Reminders

This is just a quick reminder that the Permit Application **MUST BE FILLED OUT IN FULL** before seeing a Permit Specialist. This includes the Parent Permit Number. This number is available from the Building Permit. Please contact the builder for this number prior to applying for your permit. After June 2, 2006, your application will not be processed if it is not complete. Due to time constraints, the Permit Specialist will not be able to look up the number(s).

Remember also that **FEE ESTIMATOR SHEETS ARE REQUIRED** to accompany fire sprinkler, fire alarm and medical gas permit applications. (See Fire Safety Engineering Bulletin # 020 for more information).

Thank you for having the proper information available. This will allow the Permit Specialists to assist you more efficiently.
