Re: Approval of Substantial Modification to Existing Pretreatment Program – City of Henderson

Dear Mr. Thomas:

The Environmental Protection Agency (EPA) is pleased to approve your request for substantial modifications to the Pretreatment Program for the City of Henderson (City). EPA reviewed the final modifications submitted by the City on August 2, 2018, and has determined that they meet the requirements under 40 C.F.R. §403.8(f).

EPA has also determined that the City satisfied all public notice procedures required under 40 C.F.R. §403.11 for substantial Pretreatment Program modifications, including publishing a 30-day public comment notice in the Las Vegas Review Journal and mailing separate notification to the Nevada Division of Environmental Protection, U.S. Fish and Wildlife Service, and Nevada Department of Wildlife on October 13, 2017. The City also held a public workshop on February 6, 2018 to review and discuss the proposed modifications and public comments. Therefore, in accordance with 40 C.F.R. §403.18(c)(4), EPA is approving the final modifications without additional notice.

With this approval, the modified Pretreatment Program shall be an enforceable condition of your NPDES permit, no. NV0022098, as of the date of this approval letter. If you have any questions, please contact Amelia Whitson of my staff at (415) 972-3216.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tomás Torres", with a date "August 9, 2018" written in blue ink to the right of the signature line.

Tomás Torres, Director
Water Division

ecc: Donette Barreto, Permits Branch Supervisor, Bureau of Water Pollution Control, Nevada Division of Environmental Protection
