Description:	Upon arrival was shown to the water heater. Turned water off and drained down tank. Removed and hauled away. Installed new 75 gal gas water heater. Reworked the circ pump line to fit new unit. Filled and tested for leaks. No leaks. Turned unit on to verify that it worked correctly. It did. The circ pump however is not working. It does have power to the pump, but the pump is locked up. Will have office call on Monday to set up the inspection with the owner. Water Heater	ATLAS PLUMBING, INC.	12/12/2021
