

HENDERS^{ON}

2025 ANNUAL OPEN DATA REPORT

PURPOSE

To empower the community with open, accurate and up-to-date City data that improves transparency, supports collaboration and fuels new ideas, solutions and insights for residents and businesses in Henderson.

MILESTONES

Furthering the City's Policy and Programmatic Priorities

2022 CITYWIDE DATA STRATEGY RELEASED

Proactively released Strategic Plan data and information in a fully accessible format to improve transparency and accessibility.

2023 CITYWIDE DATA STRATEGY DEVELOPMENT

Began work to create an enterprise-wide data strategy that supports our Strategic Priority of "High-Performing Public Service" and sets out the long-term vision for collecting, storing, sharing and using data.

2024 CITYWIDE DATA STRATEGY AUDIT

Engaged Global Data Strategy, Ltd. to conduct a current state assessment, future state recommendations and implementation roadmap for data strategy.

2025 CITYWIDE DATA STRATEGY EXECUTION

Began executing a multi-year, organization-wide Data Strategy project, building the foundation for a modern data ecosystem that will enable automation, dashboards, advanced analytics and data-driven decision making.

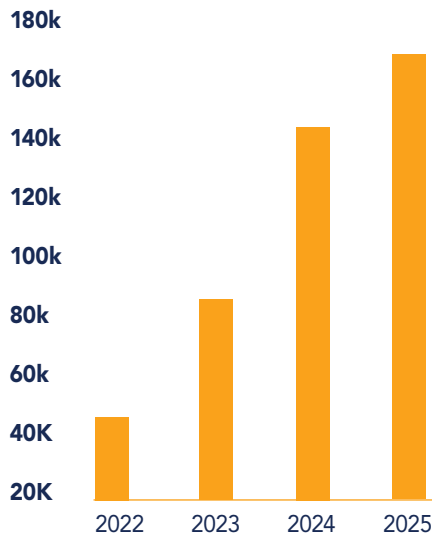

DATA STRATEGY ACCOMPLISHMENTS

Strengthening Data Governance

- Activated the Data Steward Leads Workgroup, which united 21 departments to define common terms, improve data quality and support consistent citywide reporting.
- Developed an organizational Business Glossary to standardize how data is defined, used and understood citywide.
- Leveraged the citywide Data Governance Steering Committee to guide key data-policy updates, identify best practices and collaboratively implement the City's data strategy.

WEB HITS

OPEN DATA PORTAL ENGAGEMENT

Public engagement has grown consistently, increasing from 43,515 web hits in 2022 to 173,334 web hits in 2025. This surpasses all previous years by more than 20 percent.
